

12B: Reading Comprehension

For use after Lesson 12-5

Study Skill Sometimes it is hard to understand mathematical definitions that you read unless you can also see a diagram. When you think you will have trouble remembering definitions, draw and label a diagram.

Refer to the diagram to identify the items in the following list.

1. 2 diameters _____
2. 3 chords _____
3. secant segment _____
4. tangent segment _____
5. 3 minor arcs _____
6. 3 major arcs _____
7. 2 congruent arcs _____
8. central angle _____
9. inscribed angle _____
10. semicircle _____
11. right angle _____
12. angle that equals one-half the sum of $m\widehat{DF}$ and $m\widehat{AB}$ _____
13. angle that equals one-half the difference of $m\widehat{AED}$ and $m\widehat{AC}$ _____
14. angle that equals one-half $m\widehat{ED}$ _____
15. tangent equal to $\sqrt{(HC)(HD)}$ _____
16. **High-Use Academic Words** In the direction line, what does *refer to* mean for you to do?
 - a. get information from
 - b. make measurements of
