

Practice 8-3 Tangent Formula

Write the tangent, sine, and cosine ratios for $\angle A$ and $\angle B$.

Find the value of x . Round your answers to the nearest tenth.

ON THE SIDE:

Calculate the Value of $\tan 20^\circ = \underline{\hspace{2cm}}$ Calculate the value of $\frac{\sin 20^\circ}{\cos 20^\circ} = \underline{\hspace{2cm}}$

Calculate the value of $\tan 65^\circ = \underline{\hspace{2cm}}$ Calculate the value of $\frac{\sin 65^\circ}{\cos 65^\circ} = \underline{\hspace{2cm}}$

What do you notice? _____
